2019 ANNUAL SECURITY REPORT

In Accordance with the Clery Act, section 34 CFR and the Higher Education Act section 485.
Overview

Ohio Technical College (OTC) strives to maintain an environment that is safe for all students, employees and visitors. We encourage everyone to accept responsibility for their own security as well as to support the well-being of others. Every member of the OTC community should be working together to make OTC a safer place. The following information will inform you of various policies and procedures that could affect you. The security officers are here to serve you. If you have questions concerning security, please contact Campus Security Director Patrick Wilson at 216-704-1081 stop by the security office located next to the front desk.

Policy: Preparation of the Annual Security Report

When preparing for the crime statistics disclosure, the Security Director sends a letter to the local police department requesting information pertaining to the required crime statistics for locations adjacent to the campus. The Security Director also summarizes the crimes reported on campus from the previous year to prepare the Crime Statistics for dissemination.

The Director will then submit the statistics to the compliance office for the completion of the campus safety and security survey. The survey reflects information provided from the local police department and the campus Security Department.

On October 1st of each year, the Director of Security disseminates a memo to all staff and students explaining the availability of the report, a brief description of the report, a direct link to the report, a statement that the paper copy is available upon request, and phone number to the director of security for assistance.

Ohio Technical College’s Annual Security Report is prepared and distributed in accordance with the Campus Security Act of 1990 and all related policies issued by the U.S. Department of Education (34 C.F.R. §668.46)

Policy: Timely Warning Reports

In the event that a crime considered to be a threat to OTC students, employees or visitors, is reported to campus security or the Cleveland police department, a timely warning will be issued to all staff and faculty via text, email and/or memorandum. When appropriate, students will receive immediate directions from their instructors. Also, a copy of the timely warning will be posted on the "Notices" bulletin board located in the central locations throughout the shop area. This report will contain information based on the circumstances of the crime and what precautions to take to ensure the safety of the OTC community.
Policy: Private and Confidential Crime Reporting

Staff, students and visitors that have witnessed a crime being committed should report the crime and other emergencies to Campus Security and/or key administrative personnel immediately for the purpose of making timely warning reports. It is OTC’s policy to allow victims or witnesses to report crimes on a voluntary and confidential basis for inclusion in the annual security report.

The OTC Campus Security Department is headed by a Director of Security who reports to the VP of Operations. Campus Security Officers are trained in CPR and First Aid. Campus Security Officers are employed by OTC to protect the people, property and assets of the college only. Campus Security Officers are not sworn police officers and do not have any official
arresting powers. However, Campus Security Officers do have the right to detain individuals on OTC property if they are deemed to have broken college rules and or municipal, state or federal laws.

Faculty, staff, and students who wish to report unlawful activity and or any emergency should contact the Campus Security Department immediately.

When appropriate, Campus Security will report unlawful activity to municipal authorities for assistance and/or investigation. The Campus Security Department maintains Incident Log, which describes the nature of the crime, date the crime was reported, date and time the crime occurred. We enter new reports or update old ones on a weekly basis. There are times, however, when we may withhold information from the log. If there is clear and convincing evidence that releasing such information would jeopardize an ongoing criminal investigation or the safety of an individual, cause a suspect to flee or evade detection, or result in the destruction of evidence, that information may be withheld until the adverse effect is no longer likely to occur. You can access the log at the Campus Security Office upon written request. Please allow 48 hours for your request to be accepted.

**VIDEO SURVEILLANCE**

The Campus Security Department dispatch center is equipped with a CCTV system that monitors strategic areas around campus. These cameras are constantly monitored by Security Central on a 24 hour basis. In addition Ohio Technical College Campus Security Officers are equipped with Body Cams which are used to record and document emergency events in addition to training scenarios.
Sexual Harassment and Assault Prevention Program
POLICY ON SEXUAL HARASSMENT

It is the policy of Ohio Technical College/PowerSport Institute that no member of the faculty, administration, support staff, or student body may sexually harass another. Sexual harassment is a violation of both college policy and the Federal Law and will not be tolerated or condoned.

Definition of Sexual Harassment
Sexual harassment may be broadly defined as unwelcome requests for sexual favors, sexual advances, or verbal or physical conduct of a sexual nature.

Specifically, sexual harassment exists when submission to unwelcomed conduct is explicitly or implicitly made a term or condition of an individual’s employment or student status. It can also exist when submission to or rejection of the unwelcomed conduct is used as a basis for conditions relating to employment or student status such as raises, promotions, grades or student references.

Additionally, sexual harassment exists when the unwelcome conduct has the purpose or effect of unreasonably interfering with an individual’s work performance or educational experience, or creates an intimidating, hostile, or offensive work or educational environment.

Sexual harassment may involve the behavior of a person of either gender against a person of the opposite or same gender. Sexual harassment can take many forms ranging from jokes with sexual connotations to physical assault.

Sexual harassment is a form of sex discrimination covered under Title VII of the Civil Rights Act of 1974, which prohibits sex discrimination in employment, and Title IX of the Education Amendments of 1972, which prohibits sex discrimination against students and employees in educational institutions receiving federal funds.

Reporting Procedure
If you are sexually harassed, you should report it immediately to a representative of the Human Resources Department, Security Department, or a member of the Counseling staff.

Every member of the college faculty, staff administration or student body has a duty and responsibility to report any act of sexual harassment that he/she has witnessed.

Ohio Technical College
Emergency Evacuation Plan

Evacuation

In the event of an emergency event an announcement to evacuate will come from one of three ways:

1. The sounding of the audible Fire Alarm.
2. Security or Authorized Official will announce verbally.
3. College will send a Text Message to all affected individuals/classes.

**Campus Security must be notified immediately of an emergency event, whether it be potential or real. Contact Campus Security at 216-881-1700 EXT. 116 or 216-704-1081.**

Immediately upon notification of an emergency, Campus Security will act quickly to determine the nature of the emergency in progress. Campus Security, Facilities Manager and/or Security Central should be the only persons to notify the Fire Department, otherwise use your best discretion. **NOTE: The more people we have on the phone, the greater the chance of inundating the phone system and possibly delaying the transmittal of important information.**

When an Emergency Evacuation is announced, follow Evacuation routes to the nearest exit. DO NOT use elevators. Close windows and doors but DO NOT lock them. Closing doors will help prevent the speed of the fire but locking the doors could impede emergency services efforts to access areas. Leave lights on. DO NOT try to save valuables. REMAIN CALM. Once you are outside, proceed to the recommended Assembly Area and report the status of accountability to the Area Leader. Instructors will be responsible for accountability for every student in their class. **If a student is not present at the Assembly Area, DO NOT reenter the building.** Instructors should report all missing students to the Area Leader upon confirmation. Campus Security will be the last people out of the building so immediate notification of unaccounted staff or students is paramount to the success of the evacuation process. After Emergency Services has deemed the premise clear to re-enter, Campus Security should subsequently inspect the building to ensure it is safe to re-enter.

*Special attention should be given to high risk areas such as chemical storage, volatile substances, paint storage and equipment.*
After all areas of building have been inspected by Security, the staff and students will be given the directive to re-enter the building in an orderly fashion

**Instructors:**

Accountability for your students is required and should be your number one priority in an emergency situation. In the event of an Emergency Evacuation, grab your class roster and lead your students to the nearest exit, proceed to the recommended Assembly Area, take attendance, and report to the Area Leader. Update the Area Leader if accountability status changes (i.e. a student who you reported missing is accounted for). When given the signal by the Director of Security and or Facilities Director, instructors may direct the students to re-enter the building in an orderly fashion, perform a final head count of students based on the roster, and resume classes.

* If any injuries are sustained during the emergency event and or subsequent evacuation, instructors should be previously trained in basic first aid and administer it appropriately until emergency medical units arrive.*

**Admissions:**

Accountability for your visitors is required and should be your number one priority in an emergency situation. In the event of an Emergency Evacuation, proceed to the nearest exit, proceed to the recommended Assembly Area, and report to the Area Leader. Update the Area Leader if accountability status changes. (i.e. a visitor who you reported missing is accounted for).

**Department Heads, Supervisors, and other Management:**

Accountability for your staff is required and should be your number one priority in an emergency situation. In the event of an Emergency Evacuation, you and your visitors should proceed to the nearest exit, proceed to the recommended Assembly Area, and report to the Area Leader. Update the Area Leader if accountability status changes. I.E. a staff member who you reported missing is accounted for. At the conclusion of the emergency event, department heads should confer with all instructors to ensure that all students are accounted for and that no injuries were sustained during the event or evacuation process.

*If any injuries were sustained during the emergency event and or subsequent evacuation, the department head should complete an incident report for insurance and liability purposes.*
Area Leaders:

In the event of an Emergency Evacuation, you will report to your designated Assembly Area immediately. Staff will be reporting the status of accountability to you which then you will report the status to Campus Security. Timely reporting is essential to minimizing injury or death.

Campus Security:

Officers on site of the emergency will monitor the evacuation, check bathrooms, assist Area Leaders, and report the status of accountability to the Director of Security. Once accountability is established, the Director of Security will report to the Fire Department and assist in any way they deem necessary. Once an emergency is cleared, a full report will be available to everyone through the Campus Security Department. All reports will be disseminated to staff and students unless dissemination would interfere with an ongoing investigation.

Emergency Drills:

OTC conducts periodic drills which vary among fire, tornado, and active shooter drills. Subsequent to each drill, the administration reviews the performance of each constituency and cites any problems that need to be addressed prior to the next drill.

Active Shooter Plans:

The college has established an active shooter plan following the recommendations of federal law enforcement. This plan is, for security reasons, not available to the general public. Rather, a summary of the Active Shooter Plan and illustrative video is made available internally to staff and students.

NOTE** OTC occupies multiple buildings, therefore, each building will have its own Evacuation Route maps which are conspicuously posted in each building. This plan is for Evacuation Procedures and should be followed by all buildings.
